PROFESSIONAL SUMMARY

A Web/Software developer dedicated to creating impactful digital experiences. I thrive on collaborating with teams to transform ideas into functional applications. With a keen eye for detail and a passion for problem-solving, I aim to continuously expand my knowledge and refine my coding abilities.

SKILLS

Front-End: HTML5, CSS, Javascript, React.js, Vue.js, Next.js, Nuxt.js, Tailwind CSS, Figma

Back-End: Node.js, Express.js, Prisma, Mongo DB

Mobile Development: React Native

Tools and Methods: Git, Github, Vercel, Netlify, Mobile/Responsive Development

Professional: Remote-Pair programming, Team work, Communication, Timely project delivery

PROFESSIONAL EXPERIENCE

Nathan Digital

Frontend Developer | March, 2024 - Present

- Developing and Implimenting user facing features using Vue.js, Nuxt.js and Tailwind CSS
- Collaborating closely with UI/UX designers to translate design mockups and wireframes into functional web applications
- Working effectively with back-end developers to integrate front-end components with server-side logic

Impax Business Solutions Ltd

Software Developer | May, 2023 - March 2024

- Building and Maintaining web applications
- Collaborating with cross-functional teams to translate design concepts into responsive and user-friendly websites
- implementing new features, conducting testing, and ensuring compatibility across various browsers and devices

EDUCATION

2018 - 2022 | Multimedia University of Kenya

Bachelor of Science - Information Technology

2014 - 2017 | Molo Academy

KCSE Mean Grade: B+

RELEVANT PROJECTS

Issue Tracker

Project Link: <https://myissue-tracker.vercel.app/>

- Utilizing React.js, Next.js, Prisma, Node.js, and MongoDB, this Issue Tracker app streamlines project management. It empowers users to effortlessly create, categorize, and track project issues. With intuitive features for status tracking, user assignment, and progress monitoring, it offers a user-friendly interface for seamless issue management within projects

Nairobi House of Style

Project Link: <https://nairobihouseofstyle.netlify.app/>

- This E-Commerce website is built using React js, Tailwind CSS, Mongo DB and Node js, providing users with a seamless shopping experience. Users can explore a wide range of products, add items to their carts, make purchases, and manage their orders efficiently. The platform includes user authentication, product catalog browsing, and an intuitive user interface for a smooth shopping journey

Get Linked Landing Page

Project Link: <https://main--getlinkedpage.netlify.app/>

- Experience modern web design with my ReactJS and Tailwind CSS powered landing page. Engage users with a responsive interface, seamless navigation, and visually appealing elements for an immersive experience, all optimized for superior performance and brand impact.
