About Me

A Web/Software developer dedicated to creating impactful digital experiences. I thrive on collaborating with teams to transform ideas into functional applications. With a keen eye for detail and a passion for problem-solving, I aim to continuously expand my knowledge and refine my coding abilities. Committed to staying current with industry trends, I'm excited to contribute my enthusiasm and drive to innovative projects that make a difference.

Experience

Impax Business Solutions MAY 2023 - Present

Web Developer

As a junior web developer, I've gained valuable experience in building and maintaining web applications. I've collaborated with cross-functional teams to translate design concepts into responsive and user-friendly websites. My responsibilities included coding, debugging, and optimizing code for improved performance. I've also worked on implementing new features, conducting testing, and ensuring compatibility across various browsers and devices. Through this experience, I've honed my problem-solving skills and developed a solid foundation in web development practices, eager to contribute and continue learning in this dynamic field.

Education

2022

Multimedia University of Kenya

Bachelor of Science in Information Technology

During my Studies, I acquired expertise in software development, database management, network administration, and problem-solving, preparing me for diverse IT roles
